

Federal Communications Commission  
Laboratory Division  
7435 Oakland Mills Road  
Columbia MD 21046

Date: 2011-09-16  
Subject: Request for Confidentiality  
FCC ID: YUZ-510-2026-0002

To Whom It May Concern:

Pursuant to the provisions of Sections 0.457 and 0.459 of the Commission's rules (47 CFR §§ 0.457, 0.459), OnLive, Inc. ("OnLive"), requests that the Commission withhold the following attachments associated with the certification application for the above-referenced FCC ID from public disclosure indefinitely.

Block Diagram  
Theory of Operation  
ANT specification

In support of this request, OnLive provides the following information:

1. **Identification of the specific information for which confidential treatment is sought (§ 0.459(b)(1)):** OnLive requests that all of the information contained in above-referenced exhibits to the certification application be withheld from routine public disclosure.
2. **Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission. (§ 0.459(b)(2)):** The material is being submitted in connection with OnLive's certification application for FCC ID YUZ-510-2026-0002
3. **Explanation of the degree to which the information is commercial, or financial or contains a trade secret or is privileged (§ 0.459(b)(3)):** The market for the technology that is the subject of the certification application is a highly competitive one, with numerous high tech companies competing for the business of potential customers. Were OnLive's competitors to become aware of the facts set forth in the above-referenced exhibits to the application at this time, it could have an adverse impact on OnLive's competitive standing and deprive OnLive of the marketplace benefit it otherwise might achieve by virtue of having product available before other competitors. If any of the information for which confidential treatment is sought were to be made publicly available, OnLive's competitors could reasonably determine the scope and status of OnLive's activities.
4. **Explanation of the degree to which the information concerns a service that is competitive (§ 0.459(b)(4)):** The technology that is the subject of the certification application is subject to intense competition from other manufacturers and service providers who are developing competing services and technology.

5. **Explanation of how disclosure of the information could result in substantial competitive harm (§ 0.459(b)(5)):** As noted above, were OnLive's competitors to become aware of the facts set forth in the above-referenced exhibits to the application at this time, it could have an adverse impact on OnLive's competitive standing and deprive OnLive of the marketplace benefit it otherwise will achieve by virtue of having product available before other providers.
6. **Identification of any measures taken by the requesting party to prevent unauthorized disclosure (§ 0.459(b)(6)):** This information contained in the above-referenced exhibits to the certification application has been strictly controlled by OnLive, with distribution limited to internal use only and for the specific purpose of conducting research, development, and testing of the technology.
7. **Identification of whether the information is available to the public and the extent of any previous disclosures of the information to any third parties (§ 0.459(b)(7)):** The information that OnLive requests be maintained as confidential is not available publicly. The information in the above-referenced exhibits to the certification application has been carefully protected and kept confidential by limiting external contacts to privileged and confidential communications.
8. **Justification of the period during which the submitting party asserts that material should not be available for public disclosure (§ 0.459(b)(8)):** Given the competitive nature of the marketplace, any disclosure that OnLive has developed the technology discussed in the above-reference exhibits to the certification application would harm OnLive's competitive position. The information subject to this request for confidentiality should not be made available for public disclosure at any time.

In addition to the above-referenced documents, pursuant to Public Notice DA 04-1705 of the Commission's policy, in order to comply with the marketing regulations in 47 CFR §2.803 and the importation rules in 47 CFR §2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices, OnLive also requests that the Commission grant short-term confidential treatment and not release the following attachments for routine public disclosure until March 16, 2012.
